

ELIZABETH ORITSEMIYEMI GODFREY

React & TypeScript Developer

Email: lizzymiyemi@gmail.com | LinkedIn: <https://www.linkedin.com/in/elizabeth-godfrey-oritsemyemi> | GitHub: <https://github.com/miyemicodes>

Professional Summary

React and TypeScript Developer with professional experience building responsive dashboards, landing pages, and modern web applications using React, Next.js, TypeScript, and Tailwind CSS. Skilled in translating Figma designs into scalable frontend architecture and integrating applications with backend APIs in full-stack environments. Experienced collaborating with designers, product managers, and backend engineers to deliver reliable and user-focused digital products while maintaining clean code and efficient Git workflows.

Technical Skills

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap

Backend Collaboration: REST API Integration, JSON Data Handling, Authentication Flows

Tools & Workflow: Git, GitHub, Figma, Agile/Scrum, Slack, Notion, Microsoft Teams, Google Meet

Database: Firebase

Other: Microsoft Office, AutoCAD

Professional Experience

React & TypeScript Developer – Trocah (Remote)

Nov 2023 – Present

Technologies: React, Next.js, TypeScript, Tailwind CSS, REST APIs, Git, GitHub, Agile

- Develop and maintain responsive and scalable web applications using React, Next.js, and TypeScript.
- Build reusable UI components and optimize frontend architecture for performance and maintainability.

- Integrate frontend applications with REST APIs for efficient client-server communication.
- Collaborate with designers and backend developers to deliver full-stack product features.
- Troubleshoot and resolve UI and performance issues to improve user experience.
- Participate in code reviews and maintain best practices for version control using GitHub.

Junior Frontend Developer – Digital Mojo (Remote)

May 2025 – Sep 2025

Technologies: React, Next.js, TypeScript, Tailwind CSS, REST APIs, Git, GitHub

- Developed responsive dashboards and landing pages using React, Next.js, and TypeScript.
- Converted Figma designs into clean and reusable frontend components.
- Integrated frontend interfaces with backend APIs for dynamic data rendering.
- Collaborated with designers and backend developers to deliver consistent UI features.
- Contributed to Agile development cycles and maintained project version control using GitHub.

STEM Engineering Intern (Team Lead) – Rural Electrification Agency of Nigeria

Warri, Delta State, Nigeria | May 2019 – Jan 2020

Technologies: Electrical Systems, Solar Power Systems

- Assisted in installation and wiring of solar panel arrays supporting renewable energy infrastructure.
- Supported setup and maintenance of battery systems for energy storage and backup power.
- Coordinated team activities during installation processes to ensure safe and efficient operations.

Education

Bachelor of Engineering (Mechanical Engineering)

Federal University of Petroleum Resources,

Effurun 2016 – 2024

Certifications

- Software Development – Women Techsters Bootcamp (2023)
- Web Development Course – Udemy (2023)
- Certificate of Participation – Rural Electrification Agency of Nigeria (Energizing Education Program)
